MANISTEE COUNTY TECHNOLOGY/INFORMATION COMMITTEE REPORT

Thursday, June 12, 2008
2:00 P.M.

Manistee County Courthouse
Board of Commissioners' Meeting Room

Members Present: Glenn Lottie, Chairperson/County Commissioner; Gordon McLellan, Network Administrator; Russell Pomeroy, County Treasurer; Marilyn Kliber, County Clerk; Kathi Lynn, 85th District Court; Lieutenant Robert Lancaster; Sue Wagner, County Planner; and Jeri Lyn Prielipp, Finance Assistant/Recording Secretary

Members Absent: Allan O'Shea, County Commissioner; Ford Stone, Prosecuting Attorney; Kris Randall, 19th Circuit Court Administrator; Deidre Robison, Probate Court Register; Peggy Falk, Equalization Director; Penny Pepera, Register of Deeds; and Dennis Swain, Friend of the Court;

Mr. Lottie called the meeting to order at approximately 2:05 P.M.

ITEMS REQUIRING BOARD ACTION

Mr. McLellan reported that he performed an inventory check on the servers in the Data Center and the computers that access those servers. The areas that he focused on were (1) memory; which is for running applications and additional memory extends the life of a server; and (2) hard drives; which is for storing data. Mr. McLellan stated that adding more memory to the servers will maximize the memory capacity of all the servers in the Data Center and additional hard drives would free up a comfortable amount of space on the server that is shared by the Clerk's and the Prosecutor's Offices. Mr. McLellan distributed quotes to the Committee members and recommended that the Committee consider purchasing two (2) Crucial Technology Memory 4GB (2GBX2) DDR2 667 DIMM from Provantage at a cost of \$119.08 each (plus tax) (APPENDIX A); and two (2) Seagate Barracuda ES.2 1TB SATA 7200RPM 32 MB Cache 3.5 inch hard drives from Provantage at a cost of \$248.74 each (plus tax) (APPENDIX B).

Mr. Pomeroy recommended purchasing two (2) 4GB of memory and two (2) hard drives to upgrade the server that is shared by the County Clerk's Office and the Prosecuting Attorney's Office, at a cost not to exceed \$740.00. No other recommendations were offered. (APPENDIX A & B)

ITEMS NOT REQUIRING BOARD ACTION

Mr. McLellan reported that he recently sent out an all-user e-mail requesting updates to add to the "news blurbs" section of the County's web site. The only response he received was from Mr. O'Shea requesting a news blurb on the upcoming Energy Fair. The Committee suggested announcing the new airline at the Manistee Blacker Airport; announcing the August 1st property auction on foreclosed property, offering information regarding the Primary Election; announcing the County Treasurer's move to modernize a County-wide tax accounting program, etc..

Lt. Lancaster requested that Mr. McLellan set up an account and provide training to Sheriff Department Administrative staff on how to enter the County's web site to update the calendar.

There being no other business to come before the Committee, the meeting was adjourned at 2:30 P.M.

The next regular meeting of the Technology Committee is scheduled for 2:00 P.M. on Thursday, July 10, 2008.

Glenn Lottie, County Commissioner

Russell A. Pomeroy, County Treasurer

Gordon McLellan, Network Administrator

Marilyn Kliber, County Clerk

Kathi Lynn, 85th District Court

Jeri Lyn Prielipp, Finance Assistant

Lt. Robert Lancaster

Sue Wagner, County Planner

4GB (2GBX2) DDR2 667 DIMM

Manufacturer Part Number: CT2KIT25672AA667

Abstract

When you buy Crucial memory, you're buying directly from the largest DRAM manufacturer in America and one of the top three in the world. Crucial Technology is a division of Micron. We have more than 20 years of industry experience, most efficient DRAM manufacturer, and many of the world's leading computer manufacturers use our memory. Crucial brings that same high-quality memory directly to you, the end consumer.

Product Specifications [Compare with other products.](#)

Product Name	4GB (2GBX2) DDR2 667 DIMM
Product Type	RAM Module
Memory Speed	667MHz
Number of Modules	2 x 2GB
Form Factor	240-pin
Memory Size	4GB
Memory Technology	DDR2 SDRAM
Dimensions	1.18" Width x 5.25" Length
Error Checking	ECC

Barracuda ES.2 1TB SATA 7200RPM 32MB Cache 3.5 inch

Manufacturer Part Number: ST31000340NS

Highlights

The Barracuda ES.2 drive is the perfect solution for high-capacity enterprise storage applications such as the migration of mission-critical transactional data, from tier 1 to tier 2 (nearline) storage, where dollars/GB and GB/watt are a primary concern. With energy-saving PowerTrim features, superior rotational vibration tolerance and a choice of SATA or SAS interfaces, the Barracuda ES.2 drive provides world-leading technology and value.

Abstract

The Seagate Barracuda ES enterprise hard drive is the industry's most reliable, highest capacity 7200-RPM hard drive for business-critical applications. The Barracuda ES hard drive is built with perpendicular recording technology for maximum capacity, reliability and cost-effectiveness.
